

Job posting analytics -2109-1

Technical employee for the department of analytics

The celares GmbH is a Berlin-based biotechnology company that offers services and products worldwide to companies in the pharmaceutical and diagnostics sectors.

The department of analytics analyse and characterize of bioconjugates as well as polymers using established and newly developed methods. Furthermore, release tests and analyses of medicinal products and active ingredients of microbiological origin are carried out in the associated quality control laboratory on a subcontract basis within the meaning of section 14 (4) No. 3 AMG.

We are looking for a technical assistant for the next possible appointment to work in analytics.

Tasks

Your task will be to carry out analyzes for the development department as well as in the regulated environment. Your main focus is on chromatographic and spectrometric methods. Your tasks include in particular:

- Execution of analyzes according to SOP
- Participation in the development and validation of methods
- Participation in the preparation of SOPs
- Support and operation of analytical devices
- Execution and evaluation of HPLC, MS and IR analyses
- Contribute to the preparation of reports

Your profile

- Qualification as a technical assistant or comparable training in a relevant area (biotechnology, medicine, chemistry, biology)
- Professional experience in the analysis of proteins and / or synthetic polymers, especially HPLC methods
- Knowledge of working with HPLC systems and the corresponding software (e.g. systems from Waters, Agilent or PSS) would be an advantage
- Experience in working under quality management systems is helpful
- Careful operation and good technical understanding
- Good IT skills (Microsoft Office)

We offer

We offer you

- a diversified job
- flat hierarchies
- a pleasant working atmosphere
- Company health management with access to a fitness room and sports courses
- Good traffic connections by public transport

Application

Please send your application documents with salary expectations and the next possible appointment date with the comment Analytik-2109-1 in electronic form (pdf or Word document) to Dr. Frank Leenders (f.leenders@celares.com). Applications that reach us by post will not be considered. Information about celares GmbH can be found on the Internet at www.celares.com. The positions are to be filled at short notice.
