

*Job posting bioconjugation Bio-2109-1*

### **Technical employee for the field of bioconjugaton process development**

Celares GmbH is a Berlin-based biotechnology company that offers services and products worldwide in the area of polymer-based formulation of biologics to companies in the pharmaceutical and diagnostics sectors. Additionally, we offer our clients the manufacturing of drug substances according to good manufacturing practice (GMP).

For the area of process development / bioconjugation, we are looking for a technical assistant to work on customer projects as soon as possible.

#### ***Task***

The focus is on the chemical modification of biomolecules with synthetic active ingredients or polymers. In cooperation with the project management, you will develop scalable reaction conditions and purification processes for the modified proteins.

Your tasks include:

- Development and implementation of protein modifications
- Purification of the resulting conjugates by means of chromatography and tangential flow filtration (TFF)
- Biochemical analysis, e.g. SDS PAGE, photometry, ELISA

#### ***Your profile***

- Qualification as technical assistant / laboratory assistant in a relevant area (biotechnology, medicine, chemistry, biology)
- Experience in handling and purifying proteins is desirable
- Knowledge of handling chromatography systems and the corresponding software (e.g. Unicorn)
- Experience in working under quality management systems is desirable
- Careful operation and good technical understanding
- Good IT skills (Microsoft Office)
- Young professionals welcome

#### ***We offer***

We offer you

- a diversified job
- flat hierarchies

- a pleasant working atmosphere
- Company health management with access to a fitness room and sports courses
- Good traffic connections by public transport

***Application***

Please send your application documents with salary expectations and the next possible appointment date with the comment Bio-2109-1 in electronic form (pdf or Word document) to Dr. Frank Leenders (f.leenders@celares.com). Applications that reach us by post will not be considered. Information about celares GmbH can be found on the Internet at [www.celares.com](http://www.celares.com). The positions are to be filled at short notice.
